

Remote Learning Application
Application Due Date: August 21, 2020

Remote Learners (available K-12)

Remote learners will be working at home 100% of the time, on the same content, with the same teachers as in-person instruction. Remote learning will take place online via Google classroom with materials used in the in-person class. Since remote learning will take place at home, there will need to be support from parents assisting with technology issues working in cooperation with the classroom teacher to get support as needed.

Note: Remote learners may participate in athletics but may not attend the Career Tech Center.

Virtual Learners (available 7-12)

Virtual learners will be working from home and will be completely online. The student will learn using an online platform at their own pace with guidance as needed from the virtual school director. Parents will serve as an instructional coach to help navigate the online platform and to communicate with the virtual school director.

Note: Virtual learners may learn from the Career Tech Center but may not participate in athletics.

More information is available at <https://www.whitecloud.net/WhiteCloudVirtualSchool.aspx>.

In-Person Learning (available K-12)

Students will be learning in class using the safety guidelines in the WCPS Back to School plan.

Whether families choose in-person instruction, remote learning, or WC virtual learning, students will be taught by highly skilled, caring WCPS teachers and receive the quality instruction that our community has come to expect.

If you choose remote learning, your child may re-enter in-person instruction on the following dates, Monday September 28, 2020, the Monday following the 9-week term, or the Monday following the first semester.

I would like to enroll my child in Remote Learning (check the box to the left and fill below).

Please consider this my written request for application for the following reasons.

Student Name(s): _____

Parent Name: _____

Phone Number: _____
