Welcome New Families,

Welcome to White Cloud Public Schools! We believe you are enrolling your son or daughter in an excellent school. We look forward to partnering with you for the success of your child.

There are several steps required to enroll students. There are certain items we must have in place prior to beginning our enrollment procedures. This includes gathering of (2) proof of residency, immunization records, and birth certificate. It will speed enrollment procedures if you have these records with you. Some procedures are designed to manage the information about new enrollees so that everyone is informed and prepared to help each new student have a positive start.

We will begin by gathering information from you and, if necessary, the previous school. We will then process your child's enrollment. In addition to notifying the office staff of a new student's arrival, we will notify our teachers, computer system administrator, librarian, and food service department. If necessary, we will coordinate special education services. Parents need to check with the bus garage (689-3392) to let them know that a new student is coming. At that time, you can find out where and when the bus picks up your child. If the bus garage is not notified of a new student's presence in the district, the bus driver will not pick that student up.

Our secretary will send for the rest of the school records. Please ask any questions you may have. It will be helpful if you let us know about any special circumstances your child has to better serve your family. Thank you for choosing White Cloud Public Schools!

Educationally,

Lorie Watson
Principal
White Cloud Elementary
